## POLIGAL COVID-19 STATEMENT

### POLIGAL GROUP DECLARES that:

- Several raw materials are produced in European and Asian countries, in which cases of human infection by Coronavirus Covid-19 have been confirmed.
- There are no cases of Covid-19 declared within employees at Poligal production sites.
- The raw materials used in our BOPP and CPP films reach temperatures of 250 °C in different points of our lines.
- The logistics flows of end-product last on average more than 1 week

### PREVENTION and CONTENTION PLAN at POLIGAL:

- EMPLOYEES: Re-enforcement of hygiene rules and good practices were communicated and applied, and limited size of workgroups; following the local authorities recommendations.
- SUPPLIER, PROVIDERS & VISITORS: Restrict access to strategic and key areas/services, and new rules to be followed at POLIGAL sites have been communicated.
- END PRODUCT: POLIGAL can produce under request for customer's safety stocks. In this case, contact our Commercial or Customer Service teams.
- RAW MATERIALS: Continuous risk evaluation is in process with our suppliers. Any important update will be communicated by Customer Service.

**This statement will be updated when needed through our Commercial team and at the News section of our website.**
