1. PRODUCT FEATURES

- Coextruded BOPP film.
- Excellent optical properties, gloss and transparency.
- High yield.
- Heatsealable at low temperature on untreated side.
- Strong seal in a wide range of temperatures.
- Great versatility in the packaging industry.
- Good barrier against oxygen, moisture and odours.
- High coefficient of friction.

2. MIGRATION CHARACTERISTICS

- Complies with the specifications in force.

3. USE

- Food industry: The film complies with EU and the FDA regulations for use in food contact.

5. STORAGE CONDITIONS

For optimum performance of the film is recommended storage in a protected area of high humidity and a temperature below 30°C. Material should be conditioned at room temperature for at least 24h before use. It is recommended to keep the reels in their original packaging until time of use. In case of partial use of a coil or pallet, keep the remaining material without leaning on a hard surface.

6. CONTACT WITH FOOD

The film complies with the EU and FDA regulations for use in contact with food. Refer to specific information.

7. SECURITY CONDITIONS FOR FILM HANDLING

Material safety data sheet is available upon customer request.

8. USE WARRANTY

This film maintains its optimal properties for use up to six months after production.
